April 09, 2024

Dear City Council members,

I am pleased to present to you a budget for the upcoming 2024-25 fiscal year. This budget is the culmination of many hours of work which began with the budget retreat in February. The budget is presented based on priorities identified by the City Council and proposals presented by City staff. I commend our City Departments for their dedication to providing quality services for our residents and keeping within budget restraints. All requests were made with this focus in mind to enhance services provided by the City. Unfortunately, based on budget estimates and funding availability, many requests will need to be reconsidered next year. Careful consideration was made to maintain growth at a conservative level consistent with a growing community.

Commercial and residential growth continues with 834 new permits for homes and businesses in the City. Current estimates place the City's population at 92,232 making Lehi the ninth largest City in the State of Utah. Rapid growth brings opportunities as well as challenges. More residents increase pressure on City infrastructure. Therefore, continued capital investments must occur. This budget reflects investment in parks, roads, utilities, and building assets. These investments need to occur now to prepare for the City's future.

While Lehi continues to experience economic development, growth in sales tax revenue slowed during calendar year 2023 and revenues from development are below levels experienced 2-3 years ago. However, demand for employees, particularly in public safety, requires the City to stay committed to keeping pace with the market for employee wages and benefits. Furthermore, as Lehi continues to add parks and recreation facilities, additional staff will be required to keep the facilities in good working order.

As a result of these economic conditions, a modest adjustment to property taxes is proposed. The increased revenue from the rate adjustment will fund market-driven adjustments to police and fire salaries as well as an additional employee to the parks department. Current estimates set the increase to a median-priced home in Lehi in the range of \$1.75 to \$2.00 per month. Actual amounts will be determined by growth and assessment values calculated by the County Assessor, which will be available later this year.

Budget forecasts continue to be made in a conservative manner in order for the City to respond to changing conditions. The intent is to maintain a high level of service, take care of the City's employees, while remaining able to respond to economic realities. We continue to follow City budgeting policies and best practices that allow for flexibility in the future. This requires attention be paid to growth in both revenues and expenditures.

In evaluating the overall city budget, expenditures in all funds for the fiscal year 2025 total \$350,748,800. A significant portion of this amount relates to capital projects begun in a previous year, which will continue into fiscal year 2025. This year's budget emphasizes an investment in city infrastructure as well as city employees. High inflation rates continue to impact costs paid to suppliers as well as employees. In response to these economic and market conditions, employees can realize a pay increase of up to 4.0% based on their performance.

The City is currently working on several capital projects throughout the City. The largest of these include Fire Station #84, City Hall, Family Park, and the municipal fiber network. Construction on these projects is progressing and I believe residents will be pleased with the results of the projects and the positive impact they will have on our community.

This budget is lighter on new capital projects than the last couple of years. The most significant new project is the expansion of capacity and facilities at the City's public works yard and offices. As the City grows, additional capacity is needed to protect equipment and provide workspaces for employees. This expansion is proposed to be funded via the issuance of revenue bonds from the water and pressurized irrigation funds. Additional investments will be made into city infrastructure throughout all enterprise funds.

The City continues to invest in expanding park infrastructure including Family Park, Shadow Ridge Park, Holbrook Farms Park, Cold Springs Ranch Park, and Lakeview Park. Combined, the commitment to these parks is just over \$18 million in this year's budget. These new park facilities will be a great asset to the City and its residents. In order to support the commitment to park infrastructure, an additional three employees are proposed to be added to the current staff in this year's budget.

When considering rates charged to utility customers, several factors are considered, including operational costs, capital needs and external factors outside the City's control. Additionally, comparative rates with neighboring cities are evaluated to consider the reasonableness of the rates Lehi charges. Keeping rates at a level to meet operational and capital needs is critical to maintain City infrastructure and not passing on larger rate increases to future customers.

No increase in rates is considered for Culinary Water. This fund shows good reserve levels and operational coverage. The rate for Pressurized Irrigation is proposed to increase by 5%. The primary driver in this increase is the need for new and expanded infrastructure, including the State-mandated project to meter all connections. In January, the entity which processes our wastewater, Timpanogos Special Services District, increased their rates to the City by 40%. This increase forces the City to increase its rates to end users as well. The budget proposes a 25% increase in sewer rates. Finally, the Storm Drain rate will increase, as previously adopted, by \$0.25 per month and garbage rates are proposed to increase 3.5% to keep pace with increases charge by the City's contracted provider. Even with these rate increases, Lehi City utilities will be one of the lowest rates as compared to neighboring cities.

I believe this budget, as proposed, addresses the needs which will be of greatest benefit to city residents and city employees. As we work closely with the development community, the City's rapid growth can continue in a responsible way. Lehi continues to be on solid financial footing with the aim to secure a high quality of life for current and future Lehi residents.

Respectfully

Mayor Mark Johnson

# Guiding Financial Principles

While the City's long-term goals and objectives guide what the budget accomplishes, the accomplishment of these goals and objectives through the budget process is based on following guiding principles:

## **Budgeting**

- Lehi City should finance services rendered to the general public, such as police, fire, streets, and parks, from revenues imposed on the general public, such as property and sales taxes. Special services rendered to specific groups of residents should be financed by user fees, impact fees, license and permit fees, or special assessments.
- Lehi City should balance all budgets annually, in accordance with Utah law, which states the following:
  - The total of the anticipated revenues shall equal the total of appropriated expenditures (Section 10-6-110, U.C.A.)
  - The governing body of any city may not make an appropriation in the final budget of any fund in excess of the estimated expendable revenue for the budget period of the fund (Section 10-6-117, U.C.A.)
- Revenue projections will be based on recent trends and current economic conditions. Projections will be conservative in order to reduce the chance of revenue shortfalls.

- The city will use one time or temporary funds for capital or other nonrecurring purposes. These funds will not be used to fund on-going expenditures.
- Reports will be made quarterly to the City Council to report performance and identify areas in the budget that may need to be adjusted.

## **Taxation**

- Lehi recognizes that Utah property tax regulation do not keep property tax revenue current with inflation. The City will consider adjusting property tax rates to recover lost purchasing power associated with the certified tax rate every two years. Increases in the property tax rate will primarily increase to make tax revenue consistent with inflation.

## **Debt**

- Lehi City should strive for inter-generational fairness. Thus, each generation of taxpayers should pay its fair share of the long-range cost of city services.
- Debt will be only issued for capital projects, not on-going operations. Payments for debt service will not extend beyond the useful life of the asset financed.
- Any debt issuance will be accompanied by the identification of the specific revenue stream which will be utilized to make debt service payments.
- The City will analyze its current debt to identify opportunities to take advantage of long-term borrowing to restructure or refund current debt to achieve improved interest rate and/or debt service payments.
- Finance professionals will be utilized in the area of advising and underwriting to obtain the best possible credit rating and interest rate. These professionals will be chosen based on their expertise and experience.

- Lehi City will regularly evaluate factors related to its credit rating. These factors will be used to develop policies which will maintain a high credit rating for the City.
- Lehi City will adhere strictly to all bond covenants and strive to maintain the best possible credit rating.

### **Investment Policies**

- Lehi City seeks to invest its idle cash in securities and deposits that provide safety and liquidity, while maintaining compliance with Utah State law.
- The City's objectives when determining investment alternatives will be based on (1) safety of principal, (2) liquidity, and (3) return on investment.
- The City will utilize the State of Utah's Public Treasurer's Investment Fund (PTIF) to invest its funds to emphasize security and liquidity.
- Lehi City will also engage investment advisors/brokers as needed to boost return, while keeping in line with liquidity needs and strict adherence to the Utah Money Management Act.
- As required by Utah State law, balances of all public funds will be reported semi-annually.

### **Reserves**

- Lehi City should allow for a reasonable surplus (fund balance) to accumulate for the following purposes:
  - To provide sufficient working capital
  - To provide a cushion to absorb emergencies such as floods, earthquakes, etc.
  - To provide for unavoidable shortfalls in revenues

- Fees will be evaluated on a regular basis. All fees should cover the full cost of the service provided. These costs include a fair allocation of administrative and facilities costs.
- Lehi City's targeted general fund reserve is 20% - 25% of annual general fund revenues.
- Due to the high investment in capital assets and risk exposure, all utility funds will maintain an unrestricted cash reserve of 180 days.

### **Capital Expenditures**

- Proprietary funds are intended to recover the full cost of services. These costs include operations, administration, and asset replacement.
- Lehi will maintain long-term capital plans accounting for the construction and replacement of city facilities and infrastructure.

### **Proprietary Funds**

- The city's enterprise funds will cover the full cost of the service, including a reasonable allocation of administration costs.
- Key indicators will be measured annually to monitor reserve balances, capital replacement, and debt levels.
- Internal service funds will accurately allocate costs to individual departments and funds. The city will maintain the following internal service funds:
  - Fleet
  - Information Technology
  - Risk Management
  - Facilities

## **Financial Planning**

- Lehi City exists only to serve the needs of its residents. Since these needs are continually changing, the City should consistently receive resident feedback based on both long-term and current needs.
- The City will develop and use a multi-year financial plan to identify issues of financial stress. The plan will propose possible solutions to any difficulties which are identified.
- Lehi will use a five-year rolling capital improvement plan with funding identified for all years linked to the operating budget and long-term financing strategy.
